## Message from the President

Are you in facility operations? Do you provide services to facility owners? Are you a designer who ensures the design is right from the beginning and for the many years to come?

[BCxA](#) cordially invites you to NCBFO 2017, an annual Canadian conference by the commissioning group to celebrate and advance the facility operation industry. We look forward to networking with a lot of friends in “My Building”. We are thrilled to have a line-up of industry experts to discuss the leading innovations and best practices related to the new construction and on-going facility operation. Don't miss out on the cocktail hours. To top it all, we are going to be behind-the-scene at the very best Toronto Pearson International Airport!

We look forward to seeing you at [NCBFO](#) and continuing our journey to operating better buildings.

Yours Sincerely,

Derek Cheung  
President of Eastern Canada Chapter  
Building Commissioning Association
